

## eKEY Basic for iPhone Now Available

August 18<sup>th</sup>, 2010

[eKEY for the iPhone](#) is now available! Turn your iPhone into a lockbox key in two easy steps. First download the eKEY app from the [Apple iTunes store](#). The download is free and it includes a demo version that lets you try all features risk free. Next, purchase a small hardware device, called the Supra eKEY Adapter that plugs into the bottom of your phone. Please note that you must also be enrolled in the eKEY Basic service.

If you are interested in purchasing an adapter for your iPhone, please contact your Association at (928) 282-5409 or email [mary@svvar.com](mailto:mary@svvar.com) to make an appointment. If you currently have a Display Key you will need to return it, the telephone cord or USB cable, the cradle and the power cord when you get your iPhone adapter.

### Key Product Features:

- Use your iPhone as your lockbox key.
- Program lock boxes, change shackle codes, manage lock box inventory.
- Link directly to SupraWEB right from your iPhone.
- Supra eKEY Adapter adds Infrared to your iPhone. The small accessory attaches to a keychain when not in use, and does not require charging or batteries.
- eKEY will update itself, no cradling or extra charging required.

### How to Get eKEY for iPhone

Turning your iPhone into your lock box key is a simple process which involves the following:

1. Download the [eKEY for iPhone App](#) from the Apple App Store.
2. Purchase a Supra eKEY Adapter from your Association.
3. Obtain the eKEY for iPhone Basic Service from your Association. They will provide you with an authorization code, a key number, and a PIN.
4. Open the eKEY for iPhone app on your iPhone and click on the Activate eKEY button. It will prompt you to enter your authorization code. Once this code is entered, your phone will sync with our system and you will be ready to open lock boxes with your iPhone!
